

Our vision

Our vision is a strong cohesive local community which is safe, healthy, and skilled, in which people contribute and participate.

Our mission

Clifton Learning Partnership exists to support the local community to increase its capacity in order that it can:

“Give every child and family the best chance to succeed”

Our values

It is important to us that we work in such a way that we are mindful of:

- Being human in our responses at all times
- Being grounded in our work because we believe that it is right
- Working with and being relevant to the community and our partners

Our ethos will be delivered by adherence to and respect for the following values:

Diversity - We respect and celebrate differences and strive to be inclusive in all aspects of our work, sharing diverse opinions and ideas.

Passion - We value the passion and energy that individuals and communities bring. We will be passionate and proud in all that we do.

Partnership and Collaboration – We believe that the whole is greater than the sum of its parts, and we will work in partnership with the community and those who share our values.

Creativity - We value flexibility and innovation in our approaches.

Learning – We will reflect on all aspects of our work. We won't be afraid to make changes and to evolve; and we will be brave and have a go.

Quality – We value high quality provision. We are proud of our reputation for delivering our promises and delivering them well.

Sustainability – We will use resources effectively and responsibly.

We value the contribution that every member of Clifton Learning Partnership makes and we expect everyone to demonstrate the ethos and values in all that they and we do.

Our strategic aims

1. To make the community stronger and less vulnerable to exploitation
2. To improve the basic skills of adults in order to help them to access employment opportunities, at every level

3. To reduce issues of poverty, and thereby reduce immediate stressors on families
4. To improve the basic skills of children and young people and broaden their ability to have equality of access to 'educational' opportunities
5. To support the community to improve the environment in which we live and work
